

Universal Builders Supply Ltd

Hoist Service/Maintenance semi-skilled fitter

Job Description:

An exciting opportunity has arisen for a Hoist service/maintenance field technician to take on a new role within the market leader of construction hoisting and access solutions.

Company Details:

Hire of construction Hoists and Common Tower Access System to construction and other industries nationwide. Sub-contracting for the likes of Skanska, Carillion, Canary Wharf Contractors, Ballymore and other leading international contractors.

Job Purpose:

- Primary responsibility is to provide quality inspections, maintenance and repairs of construction hoists and equipment.
- Prepare paperwork to record inspections.
- Maintenance will require troubleshooting of mechanical and electrical components and circuits.
- Inspection of construction hoists to verify safety and compliance with manufacturer's standards.
- Troubleshoot and repair hoist and mechanical components.
- Troubleshoot and repair electrical components.
- Perform scheduled preventive maintenance on hoists installed across the city of London.
- Support customers by effectively interfacing with customer and office in repairing plant as needed.
- Evaluate and make recommendations regarding required repairs.
- Provide a high level of communication with both customer and office.

Qualifications/Skills:

- The ideal candidate will have some experience on working in a construction site environment.
- Have a valid CSCS card and clean driving licence.
- Be mechanically minded.
- Basic electrical knowledge a bonus.
- Be self-motivated and keen to learn.
- Be a team player – working in small groups of 2/3.
